

PROFESSIONAL SUMMARY

- Product Owner with 5.5+ years of experience leading end-to-end product lifecycle management, cloud transformation initiatives, and data-driven enhancements across EdTech, SaaS, Cloud, and Infrastructure domains.
- Proven ability to drive architectural modernization, regulatory alignment, and large-scale product adoption.
- Strong expertise in AI-led insights, product analytics, KPI-driven decision-making, customer research, and cross-functional collaboration.
- Skilled in stakeholder reviews, product demos, requirements workshops, and go-to-market coordination, with a strong ability to prioritize backlogs and deliver scalable, high-impact solutions.

EXPERIENCE

PowerSchool Dec 2023 – Present
Product Owner

- Owned the **end-to-end product lifecycle** of a cloud-based compliance platform serving **80+ clients** and generating **\$9M in ARR**, aligning solutions with evolving government regulations and statutory obligations.
- Spearheaded the **architectural shift** from legacy XML-based reporting workflows to TEA-mandated **Ed-Fi API standards**, enabling real-time, transactional data exchanges and optimizing system scalability, data integrity, and processing efficiency.
- Leveraged KPIs including **user retention, churn rate, and LTV-to-CAC** to identify engagement drop-off points and enhance feature usability, resulting in **10% engagement lift** and **15% boost in customer satisfaction**.
- Implemented product usage analytics and structured customer feedback mechanisms, including **surveys, focus groups, and A/B testing** to uncover insights and prioritize the product roadmap.
- Utilized **AI tools such as Lovable and Cursor** to rapidly prototype and validate design concepts, driving faster discovery and accelerating ideation.

VMware May 2022 – Dec 2023
Associate Product Owner

- Managed delivery of product epics for **SaaS Subscription Commerce Platform**, collaborating with cross-functional teams (PDH, Microservices, SAP) to streamline subscription and offer workflows.
- Led rollout of the **Unified Cloud Pack conversion**, facilitating seamless user migration to integrated cloud infrastructure, reducing onboarding time by **25%** and improving subscription satisfaction.
- **Increased team velocity by 30%** by optimizing backlog grooming and sprint planning, maintaining a prioritized backlog of 200+ items aligned with strategic goals and technical constraints.
- Orchestrated **internal demos, stakeholder reviews, and release readiness** efforts, enhancing transparency and alignment across product and business teams.

Larsen & Toubro Limited Jul 2017 – Jul 2019
Senior Engineer

- Worked on a **multimillion-dollar EPC infrastructure project**, managing on-site teams of **100+** personnel while ensuring strict adherence to project timelines, budget constraints, and quality standards.
- Developed comprehensive **project schedules** and **Work Breakdown Structures (WBS)** for **1,500+ deliverables** across **83 structures**, establishing scalable, trackable workflows.
- Prepared detailed **RFPs/RFQs**, outlining technical specifications, scope of work, and regulatory requirements to ensure **vendor alignment** with project objectives, contractual obligations, and delivery expectations.
- **Fostered robust relationships** with clients, authorities, and vendors, securing early approvals and expediting project delivery by **10%** through proactive collaboration and **stakeholder engagement**.

Reserve Bank of India May 2021 – Jul 2021
FinTech Intern

- Analyzed design options for Central Bank Digital Currencies (CBDCs), reviewing global architectures, ML-driven fraud detection models, and AI-enabled payment verification frameworks to support RBI’s digital currency strategy.
- Assessed potential use cases for retail and wholesale CBDCs, evaluating implications on payment systems, financial stability, interoperability, and banking sector operations.
- Evaluated risks related to privacy, security, cyber resilience, and monetary policy transmission, contributing insights used to shape policy perspectives aligned with global digital payments trends.

EDUCATION

Indian Institute of Technology, Kharagpur, India	Sep 2020 – May 2022
Masters of Business Administration	
Motilal Nehru National Institute of Technology, Allahabad	Aug 2013 – May 2017
Bachelor of Technology (Civil Engineering)	

KEY SKILLS

• Product Lifecycle Management (PLM)	• Business & Market Analysis	• Roadmap Planning & Prioritization
• Data & AI-Driven Insights	• Cross-Functional Collaboration	• Data-Driven Product Strategy
• Product Analytics & Go-to-Market Planning (GTM)	• Customer Research & Voice of Customer (VoC)	• Go-to-Market (GTM) Planning & Release Readiness

TOOLS

• JIRA, Confluence	• Miro, Figma	• Gainsight, Cursor AI
• SQL, Python	• Tableau, Power BI	• MS Project, Smartsheet

CERTIFICATIONS

• Project Management Professional (PMP)	• AI for Product Management
• Certified Scrum Product Owner (CSPO)	• Lean Six Sigma Green Belt

OTHERS

Leadership & Volunteering: Volunteer at Child Rights and You (CRY), Head of Marketing & Advertising Club, Mess Manager

Awards & Recognition: Incubation offer from Propel Incubation BMU a Hero Group initiative, Merit Scholarship

Languages: English (Native), German (Beginner)
